

How Does Energy Deregulation Work?

Until recently, you had no ability to choose a supplier or a pricing plan that fit your needs. Deregulation unbundled the supply and delivery portions, allowing competition. Today you can buy natural gas and electricity at a competitive price from the supplier of your choice. Your local utility will continue to deliver your energy, maintain the lines and wires, read your meter and respond to any emergencies.

ELECTRICITY & NATURAL GAS

SUPPLY

(Open for Competition)

Today you can buy natural gas and electricity at a competitive price from a **supplier of your choice**.

YOUR UTILITY

DELIVERY

(Not Open for Competition)

Your utility will continue to deliver your energy, maintain the lines, read your meter, and respond to any emergencies.

YOUR METER & BILL

YOUR HOME OR BUSINESS

Your utility will continue to bill you, and you will pay them as you would normally.
