

LETTER OF EXCLUSIVITY

To: All Service Providers

Re: Service Agreement for Savant Energy Services

(Date)

There are two reasons that Letter of Exclusivity (LOE) is important for our clients. First, exclusivity forces all suppliers to participate through our process, thus driving intense competition for their business. Those not willing to bid on our platform, have some reason not to show their price up against others in a truly competitive arena. That is why we require all bids to go through our platform. Second, suppliers will only work with one energy broker at a time per account. The exclusivity eliminates any confusion as to who represents you, ensuring no delays occur when it comes time to execute on a strategy.

This letter is to inform you that _____
